The Grand River Post Secondary Education Office presents the 2010-2011 Grand River Post Secondary Annual Report.

In this report we acknowledge our Six Nations post secondary students and graduates as well as community members, agencies and partners who have supported our students in their efforts.

Together we can help to build a better future for us all. In this way, education truly is a path to the future.

In the event of any emergency that may impact our students the GRPSEO issues e mail updates to students and posts notices on the GRPSEO website.

This applies to major public health illnesses; strikes on college and university campuses; and community emergencies.

Our top priorities are doing what we can to protect people against risks while avoiding any disruption to student funding.

In recognition of our graduates' accomplishments, the GRPSEO has included in this report a complete list of graduates since 1992. As you check for your graduate, please note the increasing diversity of programs.

Your comments and input are welcomed. Please feel free to contact us if you wish to comment on this report, have questions or wish to make a contribution toward post secondary education for Six Nations students.

Summer Student 2010 Bailly Hill-Montour (Thank You to Grand River Employment & Training)

Core Functions of the GRPSEO

The GRPSEO provides encouragement and student support services to Onkwehon:we students throughout their post secondary education experience. Student responsibilities are defined at the beginning of the GRPSEO/student relationship in order to ensure student responsibility for decisions and accomplishments.

Eligible students requesting funding have access to funding within our available resources.

GRPSEO Education Counsellors commit considerable time to new students to assist them to understand and fulfill their new responsibilities regarding assistance through the GRPSEO.

Parents are encouraged to be informed about post secondary assistance through the GRPSEO and are invited to general information sessions throughout the year.

Students who wish their parents (or primary care givers) to have access to their individual post secondary information at the GRPSEO must provide written approval for Third Party Access. The approval provides authorization for one academic year and may be terminated at the student's decision.

The GRPSEO finds family support to be critical to student success and encourages this continued participation in support of student success.

The GRPSEO also encourages families to begin saving early for their child's education. The funding through the GRPSEO has not kept pace with the increasing costs of attending post secondary on a full time basis so students must increasingly rely on other sources

Outcomes and Accountability

In achieving our collective purpose, the Grand River Post Secondary Education Office places a high value on organizational integrity and efficiency. The GRPSEO strives to operate in an accountable and consistent manner.

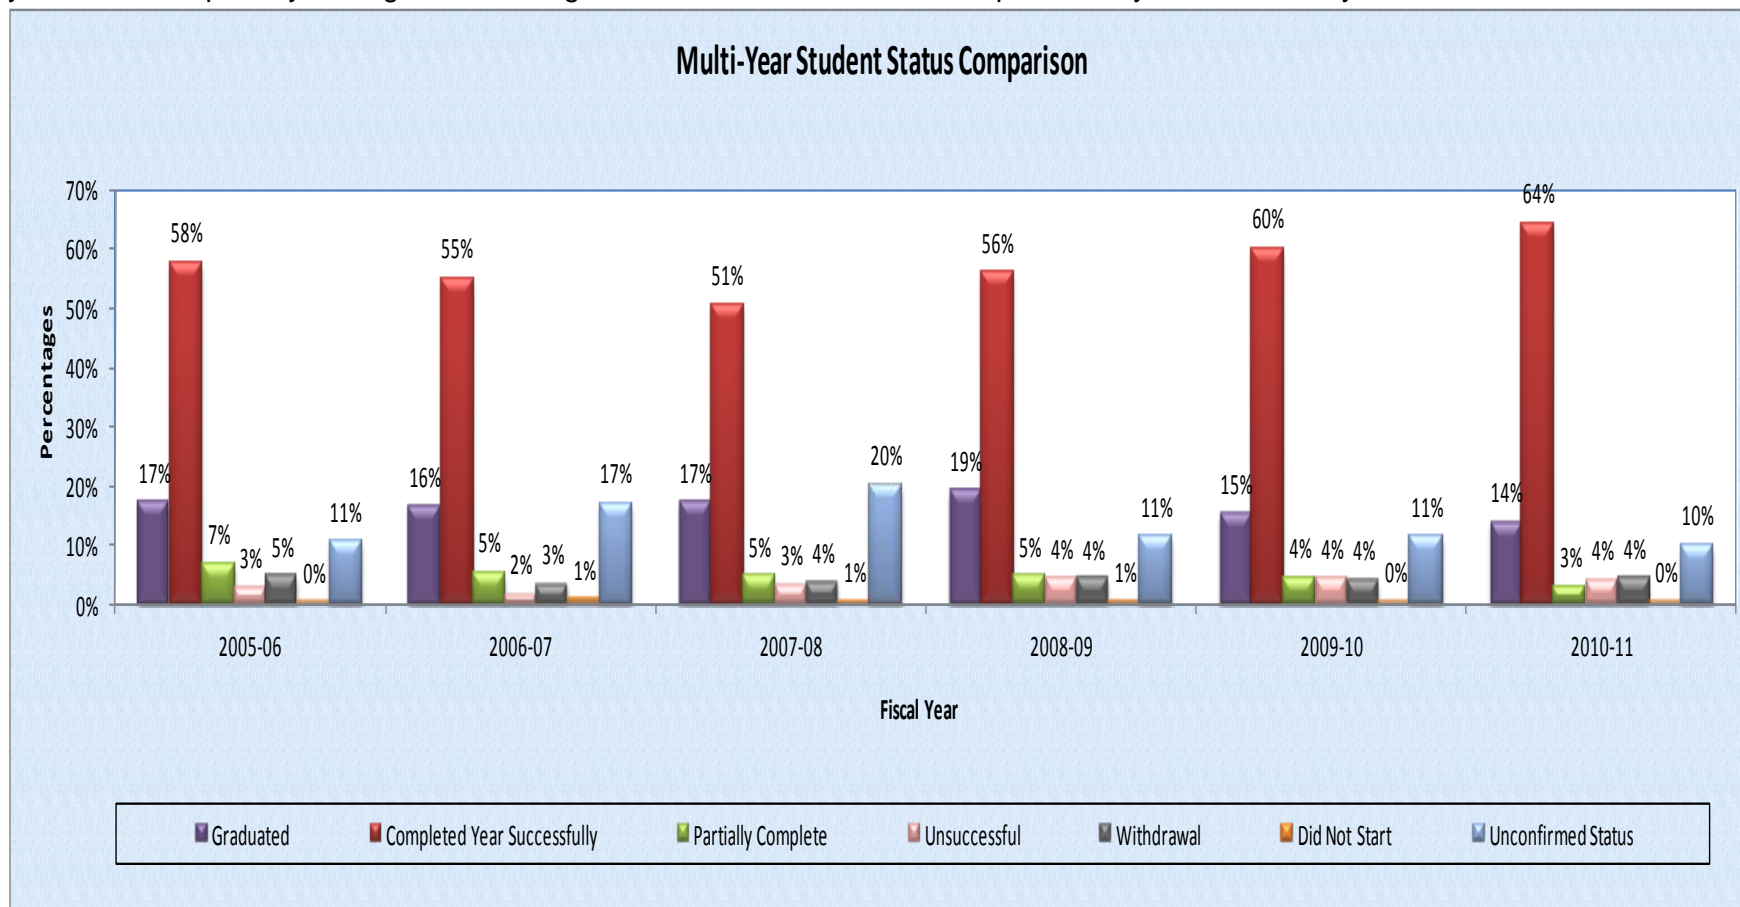

The GRPSEO consults the moral ownership of the organization, on a regular basis, to ensure that the organization is on the right track when it comes to community expectations about results and the values that guide the organization.

The GRPSEO then reports issues and outcomes on a regular basis.

- The GRPSEO measures outcomes in student accomplishments leading to graduation. Organizational resources are expended in support of this outcome.
- The GRPSEO reports on student graduation outcomes on an annual basis.
- The Grand River Post Secondary Education Office (GRPSEO) 2010-2011 financial audit was completed through KPMG, the auditing firm for the Six Nations Council.
- The GRPSEO further provides an annual enrolment report to INAC as per the 1992 MOU mentioned above.
- This report is issued to the Six Nations Confederacy Council and the Six Nations Elected Council at least once per year as well as to other key stakeholder organizations. Individuals may also request a copy of this report by contacting the GRPSEO or view the report on our web site at www.grpseo.org.

Results-Post Secondary Graduation

Six Nations post secondary students continue with high rates of success! The following chart entitled, “**Multi-Year Student Status Comparison**” shows the outcomes for Six Nations students who received funding through the Post Secondary Office over the past six years. Note especially the high number of graduates and students who complete their year successfully.

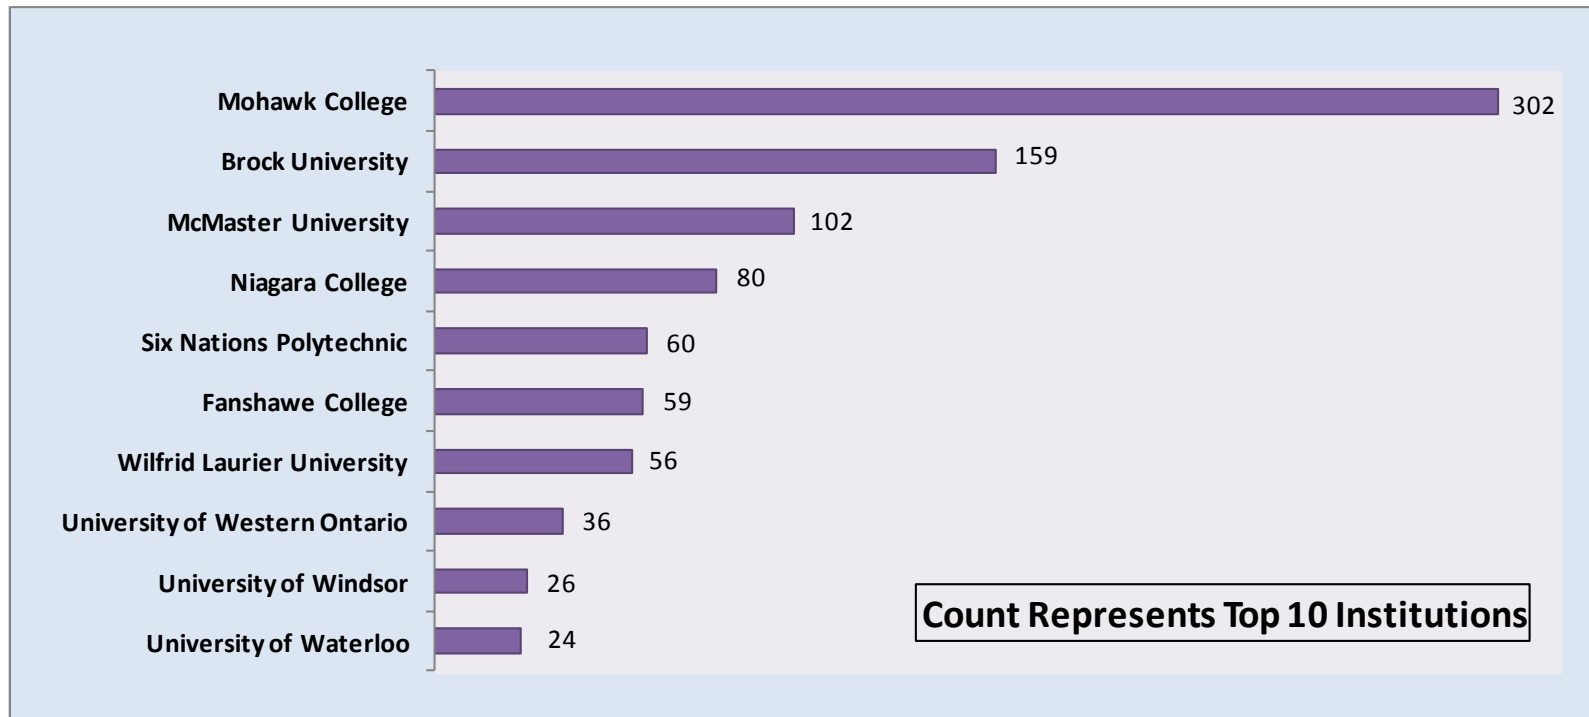

It is important to note that many of the students classified as ‘completed year successfully’ may be graduates, however the GRPSEO is unable to change their status in our database until an official final transcript is received in our office. Once received, they are classified as graduates and are then added to the graduate count and graduate data found further in this report.

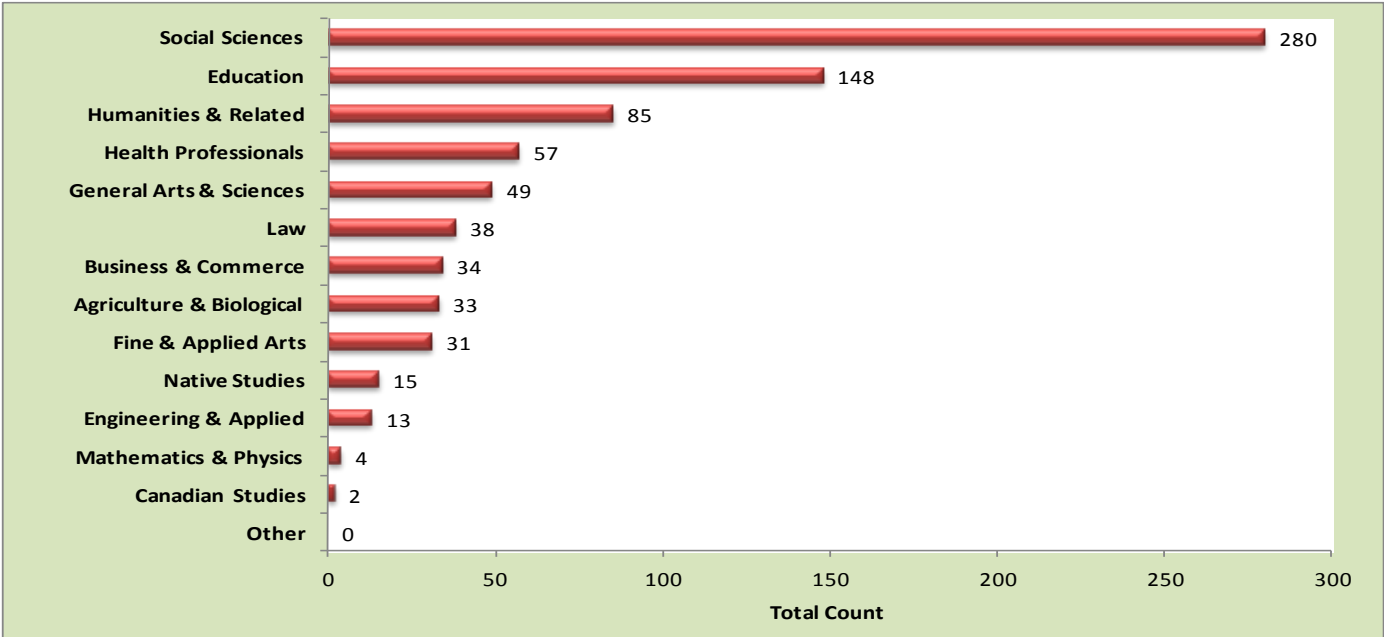

Graduate Recognition

- In 2010-2011, the format for special recognition to graduates and award recipients was changed from the Annual Student Recognition and Awards Ceremony. The GRPSEO will now publish annually, a Student Recognition Booklet which will list all of our reported graduates and award recipients for the previous year. This booklet is distributed to all local community stakeholders and contributors to the GRPSEO.
- Graduate photos are published annually in local and regional newspapers in the Fall of each year. Financial contributions have been made by Grand River Employment and Training and Imperial Oil to assist with the 2010 annual graduate acknowledgement.
- The Six Nations Grads poster series is published annually. The posters are used as an inspiration for younger students. The poster series is issued to elementary schools at Six Nations and Aboriginal Services offices on campuses upon request.

Program Diversity – Strategic Areas of Study

The GRPSEO encourages student enrolment in a diversity of programs.

The GRPSEO encourages education in strategic areas of study that address the identified needs of Onkwehon:we communities and the community at large.

Health professions, technology, the environment, public administration and Onkwehon:we languages have been identified as strategic areas of study.

The GRPSEO has been and continues to be instrumental in facilitating partnerships for new program offerings and admission processes.

The GRPSEO also facilitates long term strategies in support of a diversity of graduates

Since 2004, the Post Secondary Office has supported several incentives for students who choose the health field of study and continue to encourage students to consider health careers. The Registered Practical Nursing with Aboriginal communities program (provided at Six Nations Polytechnic in partnership with Mohawk College) is an example of a program meeting the needs of our community and population at large. The third cohort of practical nurses completed their program in June 2010. The fourth cohort began September 2010 and will complete their program in December 2011.

Our health sciences graduates enjoy choice in employment opportunities upon graduation.

Six Nations Health Science Enrolment Trends

Year	Enrolment	Graduates
1992		1
2007/2008	75	29
2008/2009	81	9
2009/2010	85	12
2010/2011	98	9

Science & Technology

Imperial Oil is keenly interested in hiring qualified Six Nations post secondary graduates.

Initiatives continue with SEED (Science Education & Employment Development) funding from Imperial Oil. GRPSEO continues to participate on the Steering Committee.

The SEED initiatives involve both short and long term education investments ranging from the elementary to post secondary levels of education as well as employment investments.

In 2010, for the seventh year, \$14,000 in tuition and book sponsorships were issued to Six Nations post secondary students enrolled in selected technology programs. Two scholarships worth \$3,500 each was also issued to students in studies relevant to the petroleum industry including Engineering, Petroleum Technologies, Business Administration, Commerce, Computer Science, Earth Science, and related disciplines.

SEED continues to fund strategic activities at the elementary and secondary levels such as homework support, summer science camps, the Stay in School Awards, professional development initiatives for Six Nations’ teachers, the annual post secondary information day and the annual graduate promotion publication. These activities all contribute to the promotion of math and science within the elementary and secondary school levels.

Progress in increasing enrolment in the technology sector is still a challenge. Our students continue to exit high school without the required math and science credits to be admitted to programs that will lead to employment in high employment sector jobs such as the petroleum processing industry. The GRPSEO continues to facilitate discussion with partners to address the preparation gap of our high school students.

Ogweheweh Language Diploma Program

In the 2010/2011 academic year, the GRPSEO was able to financially assist 42 students enrolled in the full time Ogweheweh Language Diploma Program at Six Nations Polytechnic. Students were financially assisted based on the university credit value of each program. This is viewed as a first time critical post secondary education development as it provides our students the opportunity to receive university credits for studying Onkwehon:we languages so critical to our community’s future. Development continues to be explored in this important area.

Public Administration

Enrolment in other strategic areas of need has also increased. For example, three senior managers employed within Six Nations are enrolled in the Bachelor of Public Administration program through First Nations Technical Institute and Ryerson University.

In addition to facilitating partnerships, the GRPSEO administers strategic area scholarships from partners and donors.

Incentives – Strategic Studies Scholarships

The GRPSEO also issues incentives to students from limited resources (primarily recovered overpayments). The incentives are assigned to further support student graduation in strategic areas.

The following chart summarizes the level of awards specific to identified strategic areas.

	Health SC	Technology	Business	Environ-mental Studies	Haudenosaunee Knowledge
2006 to 2007 (\$ 75,900 issued)	\$41,700	\$31,700	\$500	\$1,000	\$1,000
2007 to 2008 (\$ 103,250 issued)	\$61,750	\$25,000	\$14,500	\$1,000	\$1,000
2008 to 2009 (\$68,500 issued)	\$66,500	TBD	TBD	\$1,000	\$1,000
2009 to 2010	\$72,250	\$5,000		\$1,000	\$1,000
2010 to 2011	\$68,250	\$3,500	\$3,500	0	\$1,000

In 2011, GRPSEO has discontinued the Health Sciences Incentives to new intakes. We will continue to grandfather out those who are currently receiving Strategic Studies Scholarships in Health Sciences.

Whenever possible, the GRPSEO facilitates cohorts of our students in eligible post secondary programs. For example, the success rate of students starting their post secondary education at Six Nations Polytechnic is a clear demonstration of the value of locally delivered culturally relevant post secondary education.

The following charts provide a comparison of student program selections over the past six years.

Levels of Study

The GRPSEO encourages student enrolment in all levels of study. We are pleased that we continue to have a significant number of students studying and graduating at the Graduate and PhD level.

The retirement of baby boomers and the continued progress in technology means our community and the country have multiple opportunities for our graduates from all levels of study. Our graduates can therefore contribute significantly to our collective future well-being for Six Nations and Canada. For further information on the economic impacts of investing in our Six Nations youth, you can visit our website to view our document **The Value of Post Secondary Investment: A case for increased investment in Post Secondary Education for Six Nations Students** issued June 2011.

Six Nations post secondary students contribute significantly to broader society

The fact that 793 Six Nations students were enrolled in post secondary programs in 2010-2011 has significant implications – not just for Six Nations people but for the broader public both now and in the future.

Beyond Economics

Each Six Nations student contributes individually to cross-cultural understanding and their chosen profession given their personal knowledge, skills and understanding of the world. Although these contributions are difficult to “quantify” they must not be overlooked. Six Nations graduates are actively engaged in protecting and building our collective future from the local to international levels.

Even before graduation, our students are called on to “educate” others about Aboriginal peoples and in doing so correct stereotypes that are all too prevalent. Upon graduation, most graduates become de facto diplomats for their people at some time in their lives.

With time, the impacts of significant numbers of Aboriginal people in a given field produce positive measurable impacts. For example, social work, teaching, law and law enforcement professions have been significantly changed given the participation of Aboriginal professionals. There are significant changes to medical training competencies regarding Aboriginal health. We look forward to the changes that more Aboriginal health professionals will bring to our health services and our health status overall.

Our PhD graduates are teaching in Canadian universities; engaged in research and mentoring our students. We know there are still much misunderstanding and prejudice that can hinder our students but having our graduates in the institutions has proven critical to our students’ successes.

Economic Contributions

Seven hundred ninety-three (793) Six Nations students make significant economic investments (over 6 million dollars) to the economies of the communities, cities and provinces where they attend. Every full time post secondary student makes significant contributions to the local economy where they live and learn. They pay tuition (helping to pay faculty and staff salaries), buy books, use transportation, pay residence fees or rent, buy food from grocery stores, buys clothes, pays residence fees or rent and on and on...

In Support of Student Success

In support of student success and graduation...

Student funding, within available resources, is provided for:

- Mandatory tuition at Canadian public post secondary institution rates
- Book allowance to a maximum of \$400 for a full time semester (in effect since 2001)
- Education allowance at \$800 per month (in effect from 1996)
- Mandatory program fees for college students to a maximum of \$2,000 per year
- Mandatory program fees for undergrad, graduate and post graduate students to a maximum of \$1,000 per year.
- Tutorial assistance funding to a maximum of \$150 per semester.

Incentives are issued if funds become available within a fiscal year then Generic Incentives are shared amongst continuing fulltime successful students. This money only becomes available when students withdraw or decide not to continue after being approved for funding and when students repay overpayments. This is a separate incentive from the Strategic Studies Scholarship.

Accurate and timely information is available:

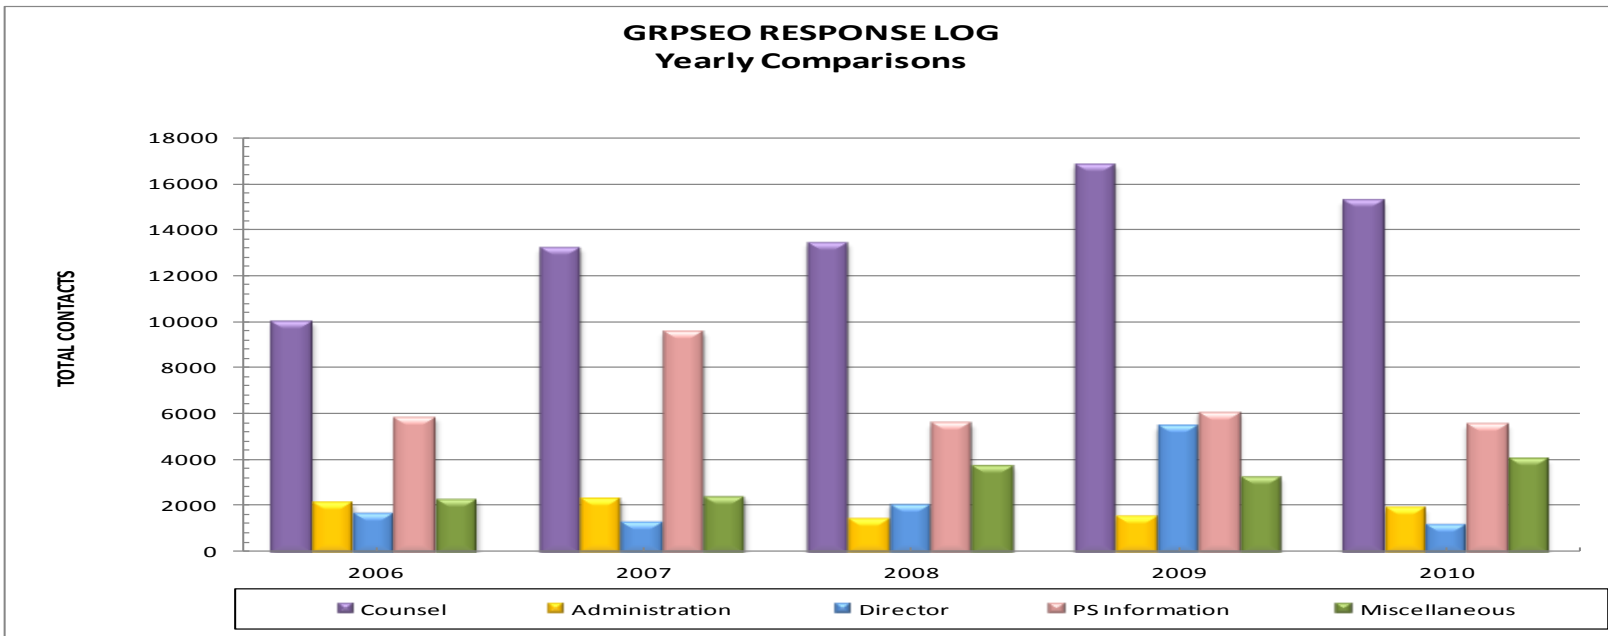

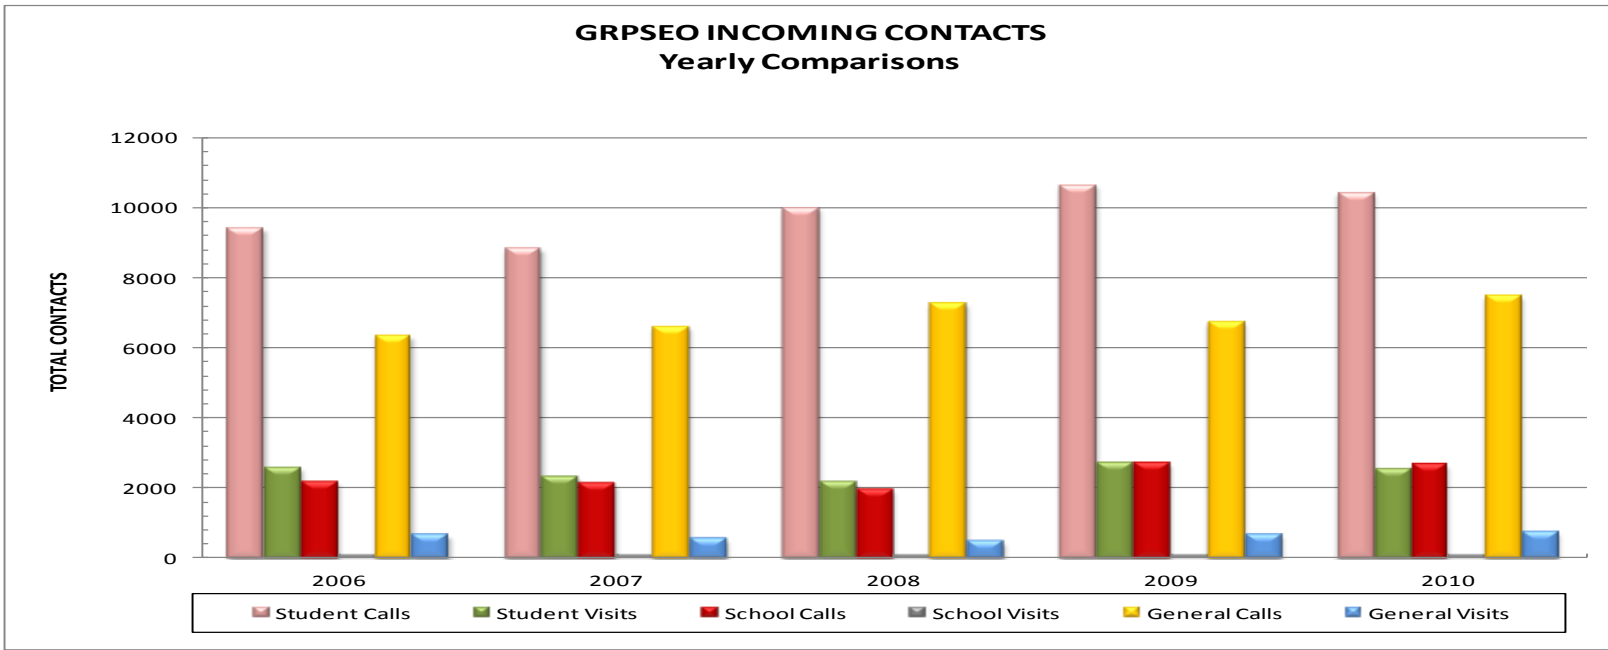

In 2010-2011, the annual Post Secondary Information Day was held in November 2010 and a student-parent information session was held in February 2011.

Students receive the following GRPSEO publications: GRPSEO Student Information Calendar, and A Student Guide to Post Secondary Education Assistance and a 4G flash drive. Students also receive e-mail or mailed updates each semester.

The GRPSEO Community Awareness Strategy continues throughout the year. Our on-going communication strategy involves the GRPSEO Student Information Calendar, e-mails, web and print updates. Our “save for education” awareness campaign continues with the issuing of savings banks to all grade one students at Six Nations. In 2010 the GRPSEO also participated in the annual Bread and Cheese Parade to further promote awareness for planning and saving for education.

The GRPSEO website is a key starting point for updates and current information.

The following summary of our contact rates gives an indication of our service volume:

Student planning is required:

The 15th Annual Post Secondary Information Day was held on November 3, 2010 with college and university representatives on hand to answer questions. Six Nations post secondary students were also on hand to answer questions .

An education plan is required of all first time funded students as well as from students making significant education changes. The education plan must demonstrate that the student's choice of program and institution is based on sound information, also that the student has given consideration to potential barriers and support systems while enrolled in their program of study.

Career assessments are also required from students enrolled in 1st year of a General Arts & Science program. This is done to ensure that students going into their 2nd year will be making knowledgeable program and career choices to maximize their skills and knowledge.

Student contact is maintained:

Mandatory orientations with first time funded students or student making significant education plan changes continue to support student success. Students are more proactive with counsellors resulting in far fewer academic "fail outs". A subsequent student-counsellor contact schedule is established from this session. The contact requirement may range from the once a semester minimum to once a week.

Students continue with at least one formal "contact" with their GRPSEO education counsellor per semester (more if identified at risk or needing extra support by their counsellor). Contacts are made by phone, E-mail or in-office sessions. The overall contact rate for 2010/2011 was once again very high – 97%!

While enrolled, students are also required to:

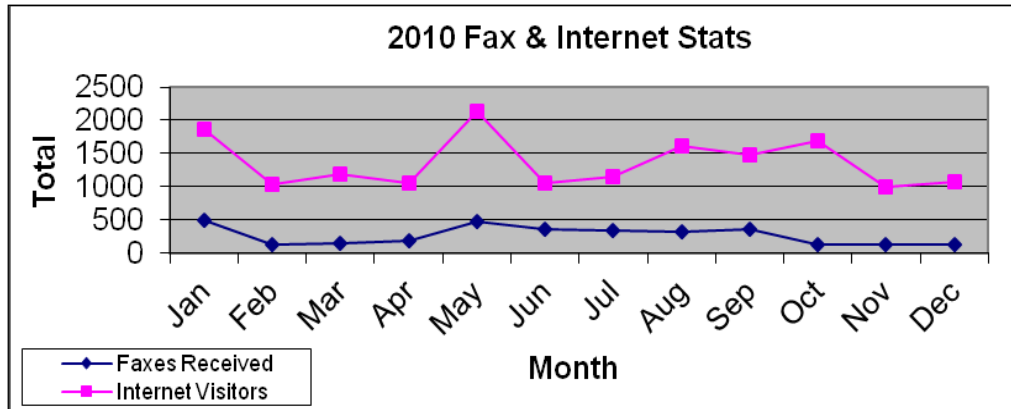

- Submit marks/progress reports by scheduled dates.
- Submit a revised education plan if significant changes are planned.

Student Resource Center is available:

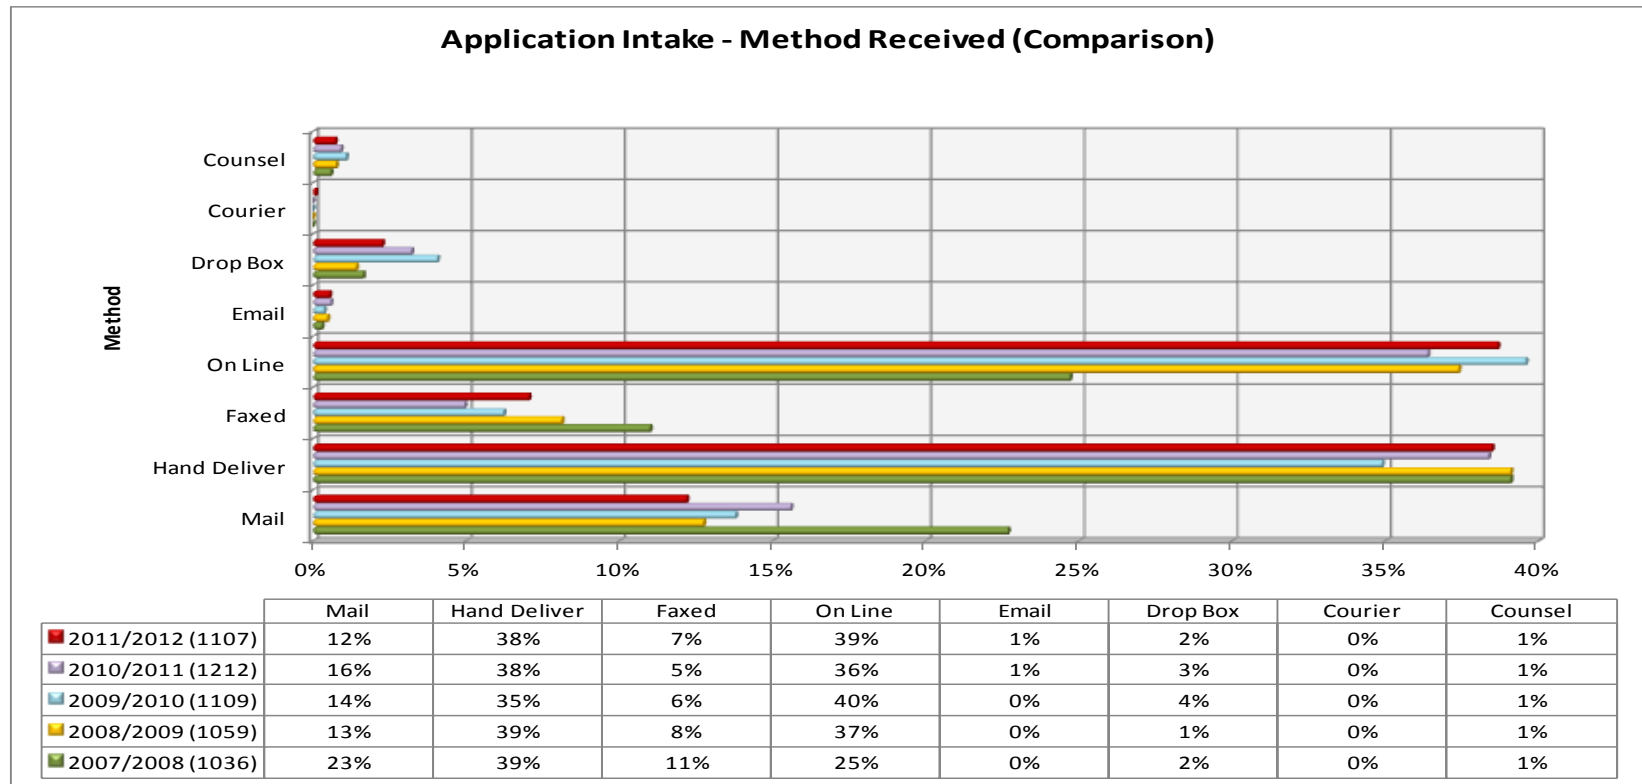

The GRPSEO strives to provide a welcoming atmosphere for students.

Students continue to access fax, photocopy, computer, and Internet equipment at the GRPSEO. The Internet station is an essential tool for students researching institutions, programs, scholarships, and bursaries. Students are increasingly required to apply for admission on-line so the demand for these services continues to grow.

The GRPSEO web site is a key information access point for most students. Students access education assistance application forms and up to date policy information twenty-four hours per day via our web site at www.grpseo.org. A special thanks to Virginia Martin for keeping the website up to date.

To apply on-line go to the
website at
www.grpseo.org.

Student progress is monitored:

Student progress and marks review are completed by Education Counsellors for each semester to determine appropriate follow up for tutorial assistance, student program changes; cancellations; withdrawals, and overpayments if required.

Funding rewards SUCCESS:

Due to demand exceeding available funds, it is necessary to apply a priority system to provide as fair and equitable access to the limited funds as possible. There are seven priorities – priority 1 is for successful continuing students; priority 2 applies to recent high school graduates applying to post secondary for the first time. Beginning in 2006, the priority policy was revised to further support student success. Priority 7 will apply based on failures per semester. This means that a student assigned priority 7 will no longer have to pass all courses in the next semester to qualify for a higher priority.

The following is an outline of our priority system:

- Priority 1 Returning/continuing successful students including continuing successful self-funded students
- Priority 2 New high school graduates
- Priority 3 Withdrawls for just cause (emergency cases)
- Priority 4a Part time successful students applying for full time assistance
- Priority 4b Out of school for two or more consecutive academic semesters
- Priority 5 Graduates who change programs but are not changing their level of study
- Priority 6 Students from other countries (for September starts only)
- Priority 7 Previously unsuccessful students

Please note that a requirement of 12 months residence in Canada prior to the application date applies to Priorities 1 through 5

Due to the lack of funding available to meet the needs of our community, we have not been able to fully fund all Priority levels. For more details regarding our priority system, please check our website at www.grpseo.org.

Students are accountable

A student is assigned an overpayment for failed courses. An overpayment must be cleared to be eligible for future funding. Students are increasingly paying off their overpayments in lump sums to obtain the 15% reduction offered as an incentive to regain eligibility.

	Overpayment Issued	Overpayments Recovered	% Recovery
2005-06	\$585,656.38	\$432,566.48	74%
2006-07	\$334,094.00	\$409,752.00	123%
2007-08	\$714,854.16	\$567,392.21	79%
2008-09	\$816,017.55	\$550,966.55	68%
2009-10	\$752,658.00	\$452,610.00	60%
2010-11	\$957,431.13	\$520,472.38	54%

Student accomplishments are recognized and rewarded:

Through on-going GRPSEO staff interaction with students.

Within available resources, scholarships and incentives are issued through the GRPSEO.

A history of student accomplishments (pictures and video tapes) is maintained at the office.

Each edition of the Board newsletter features a good news story about a student or grad. The newsletter is distributed in the community.

Award and scholarship recipients are given special recognition in the Annual Student Recognition Booklet (the following list is from August 2010). We are pleased to note that the list of recipients continues to increase.

Special Mention - August 2010 Student Recognition

STUDENT	PROGRAM	INSTITUTION	AWARD
Montana Baerg	Bachelor of Fine Arts	Ontario College of Art and Design University	NAAF -Fine Arts-Indian and Northern Affairs Canada
Meagan Barnhart	Veterinary Technician	Northern College	2011 - with distinction

The GRPSEO advocates for Six Nations specific scholarships and awards from donations, fundraising and private sponsors. We are pleased to note the list of local scholarships continues to grow. We did experience a decline in the number of applications to these scholarships and are looking at strategies to increase awareness on these scholarships.

Norm's Golf for Grads is the GRPSEO's main event to raise funds for GRPSEO specific scholarships. A special thanks to the Jacobs family for their support in this event. Tournament Profits (for scholarships) for each year are shown below:

2006	2007	2008	2009	2010	2011
\$ 8,085.87	\$ 9,835.79	\$ 12,460.25	\$ 11, 518.14	\$ 10,729.98	\$ 7,341.21

Six Nations Specific Scholarship Recipients 2010/2011

Additional Scholarships are made available to Six Nations students through the contributions of our community stakeholders and the GRPSEO Board and Staff. Below is the list of scholarships which were distributed for the 2010/2011 academic year.

Student	Program	Institution	Award
Brandi Hill	Aboriginal Small Business Management	Mohawk College	Amos Key Jr Premier's Award
Bradley A. Burrows	B. of Applied Science - Civil Engineer, Co-op	University of Waterloo	First Nations Engineering Services Ltd. Scholarship
Bailey M. Worth	Practical Nursing	Mohawk College	Florence M. Sheridan Nursing Bursary
	Scholarship not offered in 2011		Gasparelli-Styres Effort Award
Nichole M. Martin	Master of Business Administration Program	Athabasca University	Grand River Post Secondary Board & Staff Scholarship Clerical/Business & Commerce/Law
Lee Anne Bomberry	Honours BA	The Richard Ivey School of Business	Grand River Post Secondary Board & Staff Scholarship Clerical/Business & Commerce/Law
Calissa Power	Business & Information Technology	Georgian College	Grand River Post Secondary Board & Staff Scholarship Clerical/Business & Commerce/Law

Student	Program	Institution	Award
Joelle Williams	Business Administration – Marketing and Management	Pensacola State University	Grand River Post Secondary Board & Staff Scholarship Clerical/Business & Commerce/Law
	No applicants for 2011		Haudenosaunee Recognition Award
	Names not available at time of this report. Please check GRPSEO and SEED websites.		Imperial Oil Science Education and Employment Development Scholarship (SEED)
	No applicants for 2011		Norman Jacobs Environment Scholarship
	No applicants for 2011		Panda Environmental Services Award
Levi S. White	Police Foundations	Fanshawe College	Six Nations Police Adam Burning Scholarship
64 Students	Various Programs	Various Institutions	Strategic Studies Health - GRPSEO
Carley R. Gallant	Visual & Creative Arts	Sheridan College	Styers Family Effort Award 2010
	No applicants for 2011		The Law Society of Upper Canada
Craig Thomas	Business & Information Technology	University of Ontario Institute of Technology	William Wellington Scholarship
	To be issued in 2012*		Isaac Durham the First Scholarship *

NOTE: In 2011, the Isaac Durham the First Scholarship was designated for high school graduates entering into the Ogwehoweh Language Diploma Program (OLD). Six Nations Polytechnic was unable to offer an intake for year 1 in 2011 due to low enrolment. However, Six Nations Polytechnic has confirmed that they will offer the program again in fall 2012, at which time, the Isaac Durham the First Scholarship will once again be offered.

Positive learning environments for Six Nations post secondary students are supported by the GRPSEO within available resources.

The Board and staff support good access, equal opportunity, respect, and support systems for Six Nations post secondary students.

Board members and the GRPSEO Director continue to be involved in Aboriginal Education Councils at various post secondary institutes where a high number of our students are enrolled. These Councils advise college and university presidents regarding programming, student support needs, and also help to sensitize college and university staff regarding Onkwehon:we culture, language and history. The GRPSEO is currently active in Councils at Mohawk, Niagara and Fanshawe Colleges as well as Western, Laurier and Brock universities. We also hold a seat on the Six Nations Polytechnic Board of Directors.

Board and staff members attend selected education forums to keep up to date on student support strategies and opportunities and to inform others of Six Nations education needs.

The GRPSEO Director participates in the Six Nations Ethics Committee which reviews all research applications dealing with Six Nations. It is encouraging to see a number of Six Nations graduate students focusing their research on Six Nations issues.

The GRPSEO Advocates for Increased Funding

The GRPSEO continues to advocate for increased funding through the submission of reports to Indian and Northern Affairs Canada.

A Report of Eligible Costs for Unfunded Students was not submitted to INAC in 2011 as INAC stated they no longer required this data. However, the unfunded data is still calculated internally and used in our advocacy efforts. The unfunded data is as follows:

Year	Number of Unfunded Students	Unfunded Eligible Costs	Budget Increase Received	Additional Funds Required
2010/11	401	\$4,633,010	\$108,598	\$4,524,412
2009/10	492	\$5,988,950	\$102,500	\$5,886,450
2008/09	295	\$4,562,800	\$199,493	\$4,363,307
2007/08			\$5,502 ¹	
2007/08	210	\$2,951,012	\$176,000	\$2,775,012
2006/07	215	\$2,640,724	\$138,300	\$2,502,424
2005/06	255	\$2,811,600	\$168,100	\$2,643,500
2004/05	217	\$1,981,415	\$162,200	\$1,819,215

GRPSEO offers Professional services on a Fee for Service basis to First Nations

The GRPSEO engages in fee for service to help cover the costs of operations. The GRPSEO continues to market the Grads data base, purchased by 41 First Nations education organizations. Our in-office expertise continues to provide technical support and training for 11 First Nations on an annual basis.

Funding Allocations

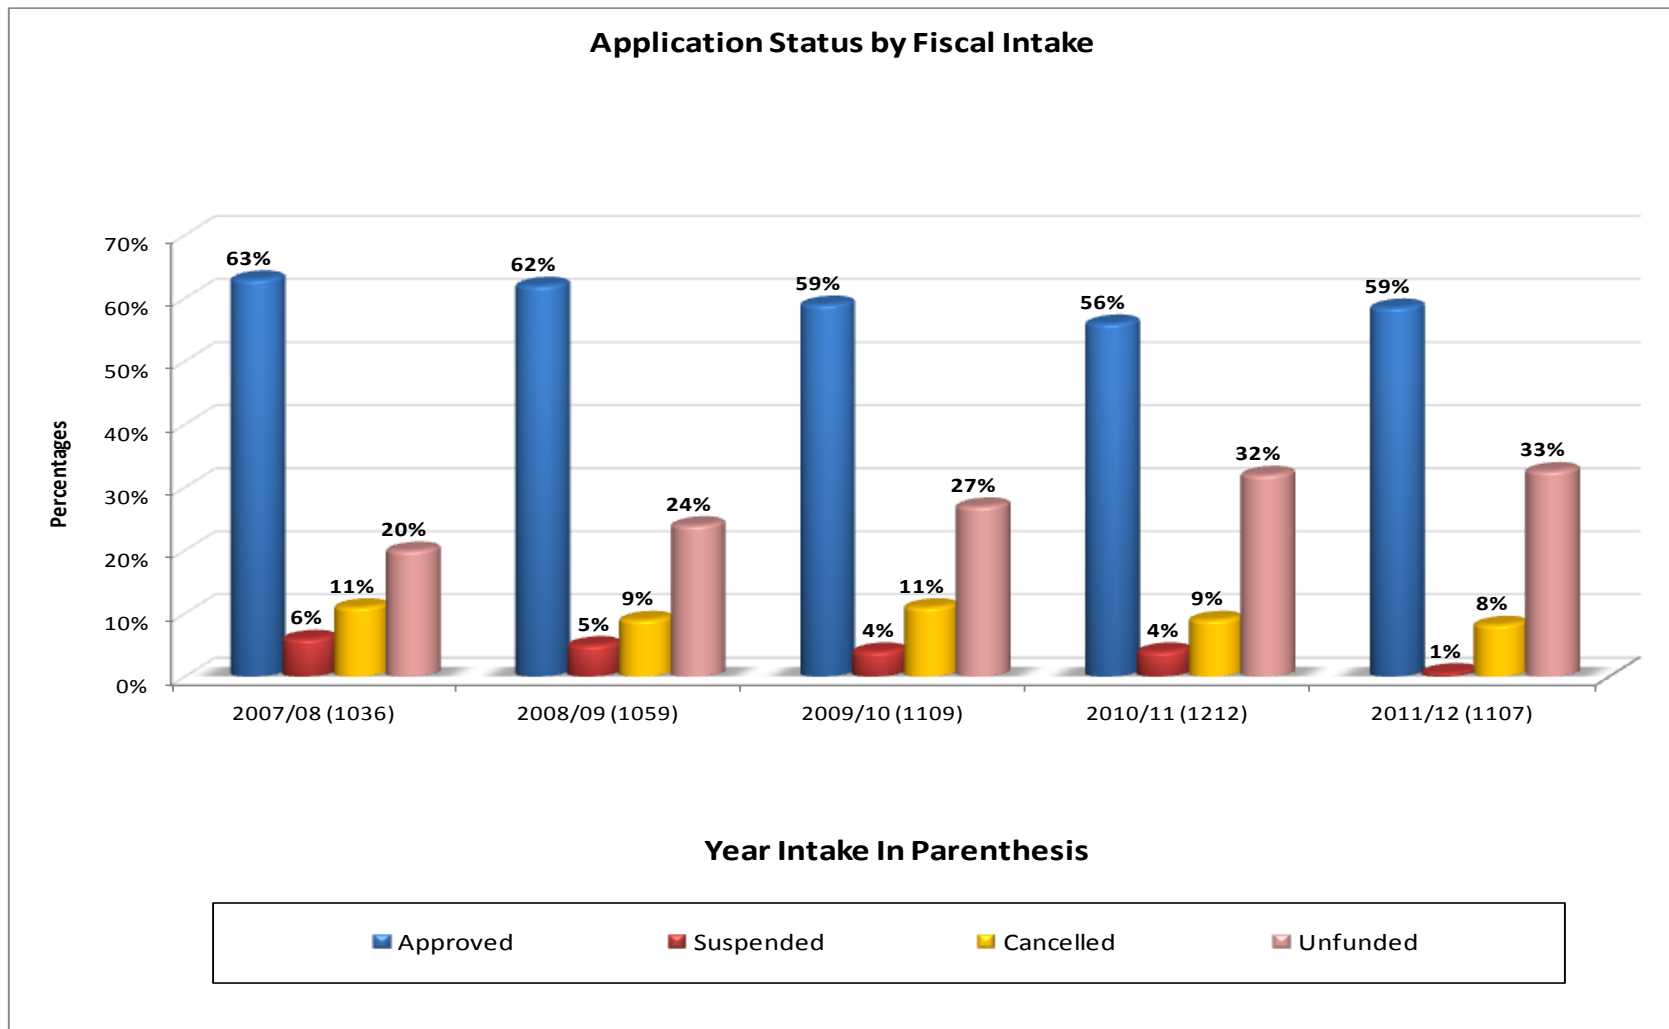

Resources are linked with student success and equitable distribution.

Within available resources, the majority of funds are allocated based on student priority and continued academic success. The priority system is designed to provide fair and equitable access to limited funds as students pursue their goal of graduation. Successful continuing students are rewarded with top priority for on-going funding. If a student fails a course then students are expected to pay back the tuition funds, so once again, success is rewarded. Limited resources (primarily recovered overpayments) are assigned for incentive purposes to further support student graduation.

Limits of assistance apply at each level of post secondary study. The majority of students complete their program within the limits of assistance.

¹ The additional \$5,502 was a one time only allocation from INAC. The GRPSEO was advised in February and issued these funds equally to all eligible full time students at the time of issue.

The following graphs show rate of applications approved and distribution of student funds according to significant identifiers:

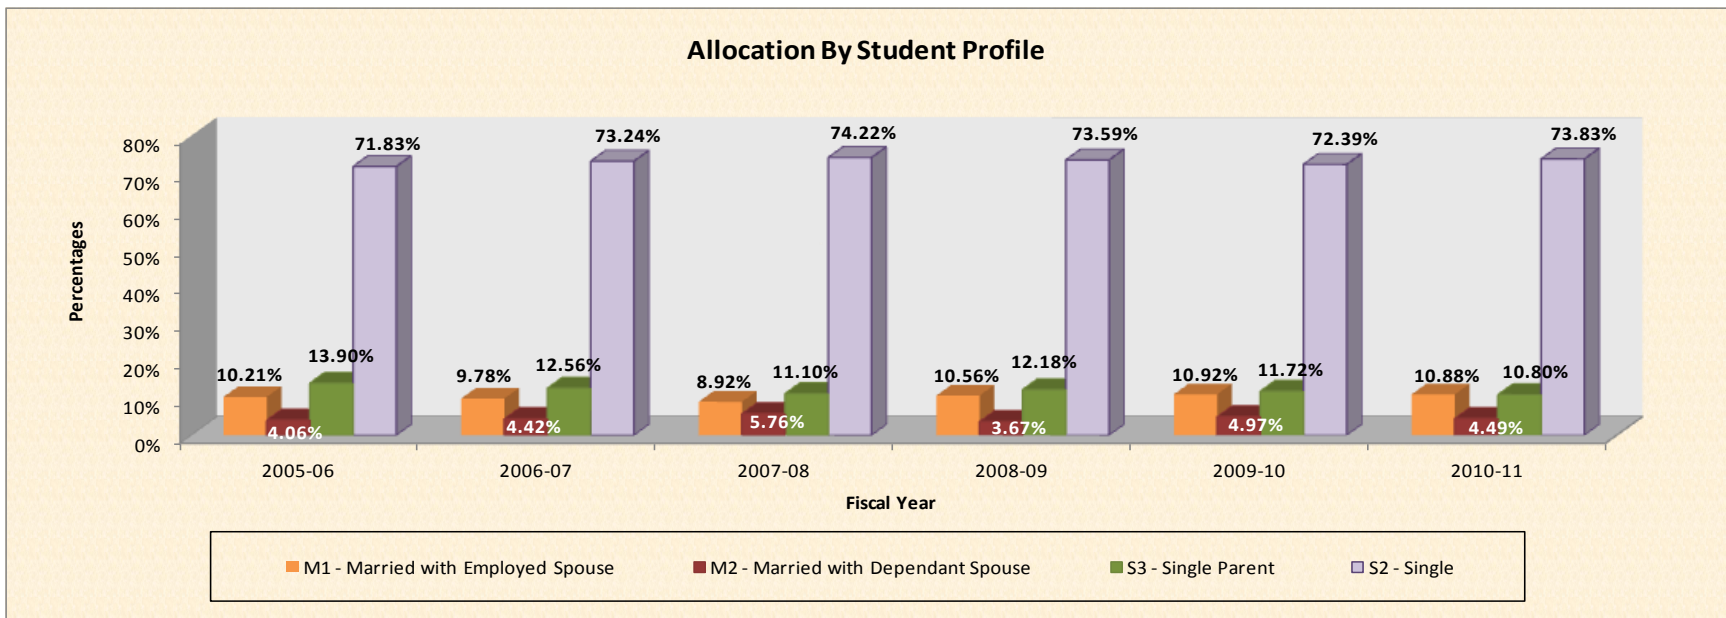

NOTE: 2011/2012 data is as of Sept 30, 2011 so does not reflect a full intake cycle.

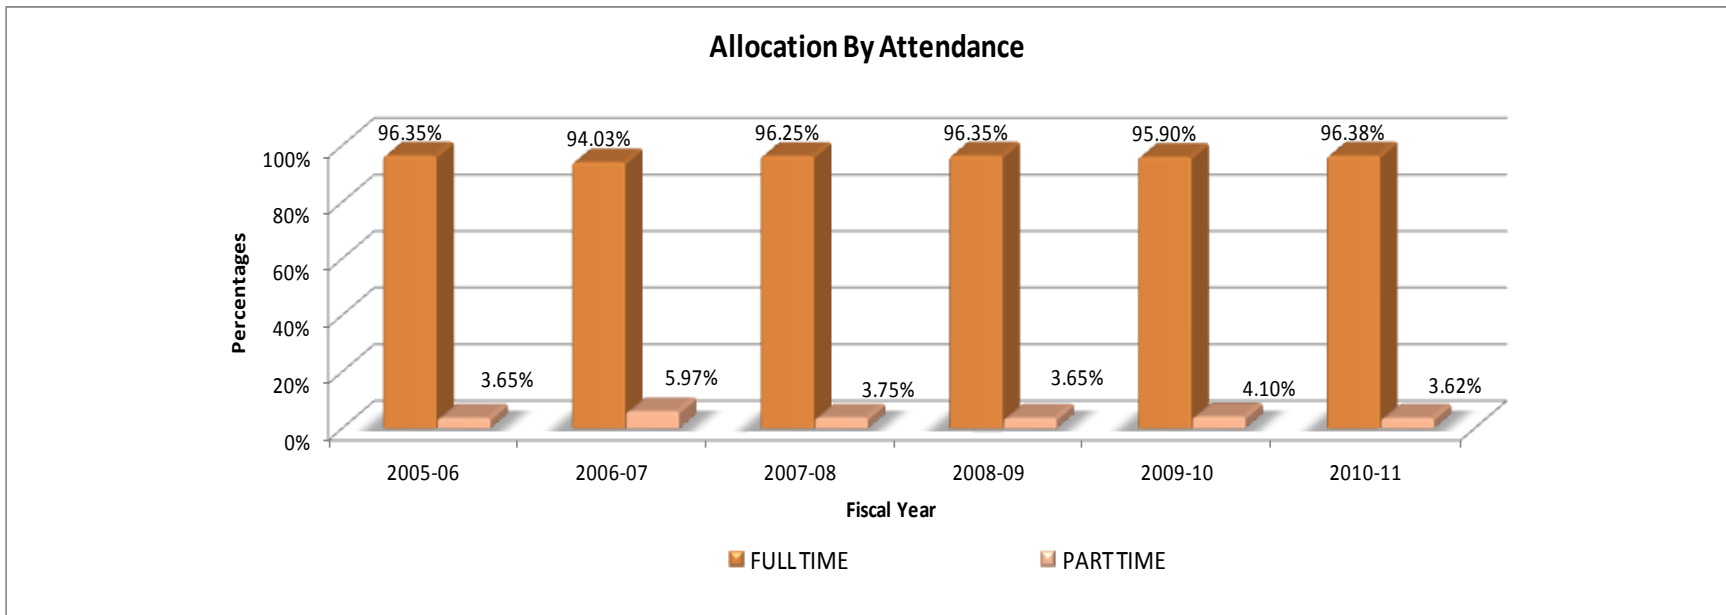

Students approved for funding very rarely allow this opportunity to be lost.

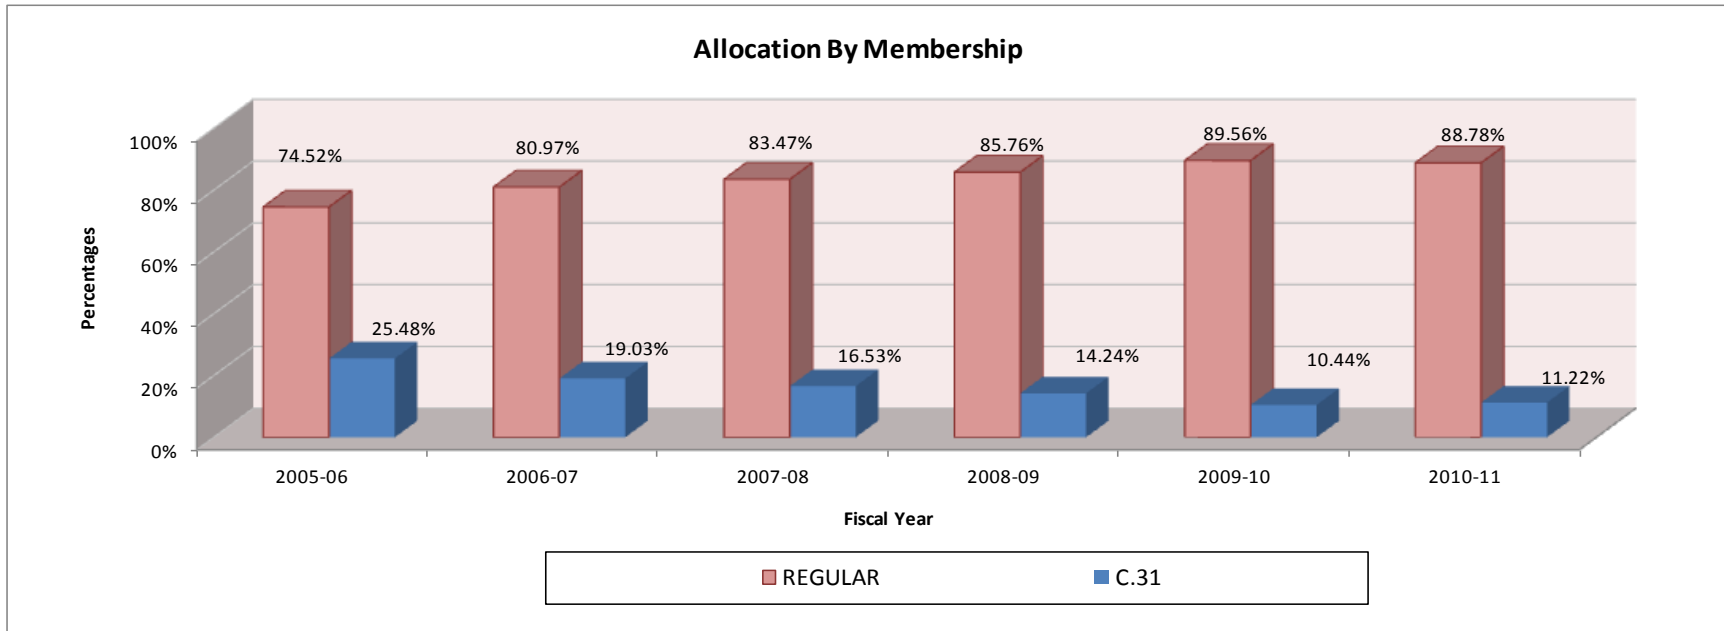

“Suspended” applications in this chart, indicates the declining number of students unable to complete their year once it has started. Cancelled refers to students who apply and then change their mind and includes students who are not admitted to their programs of choice.

“Unfunded” are those students who do not receive assistance from GRPSEO due to the limited available funding.

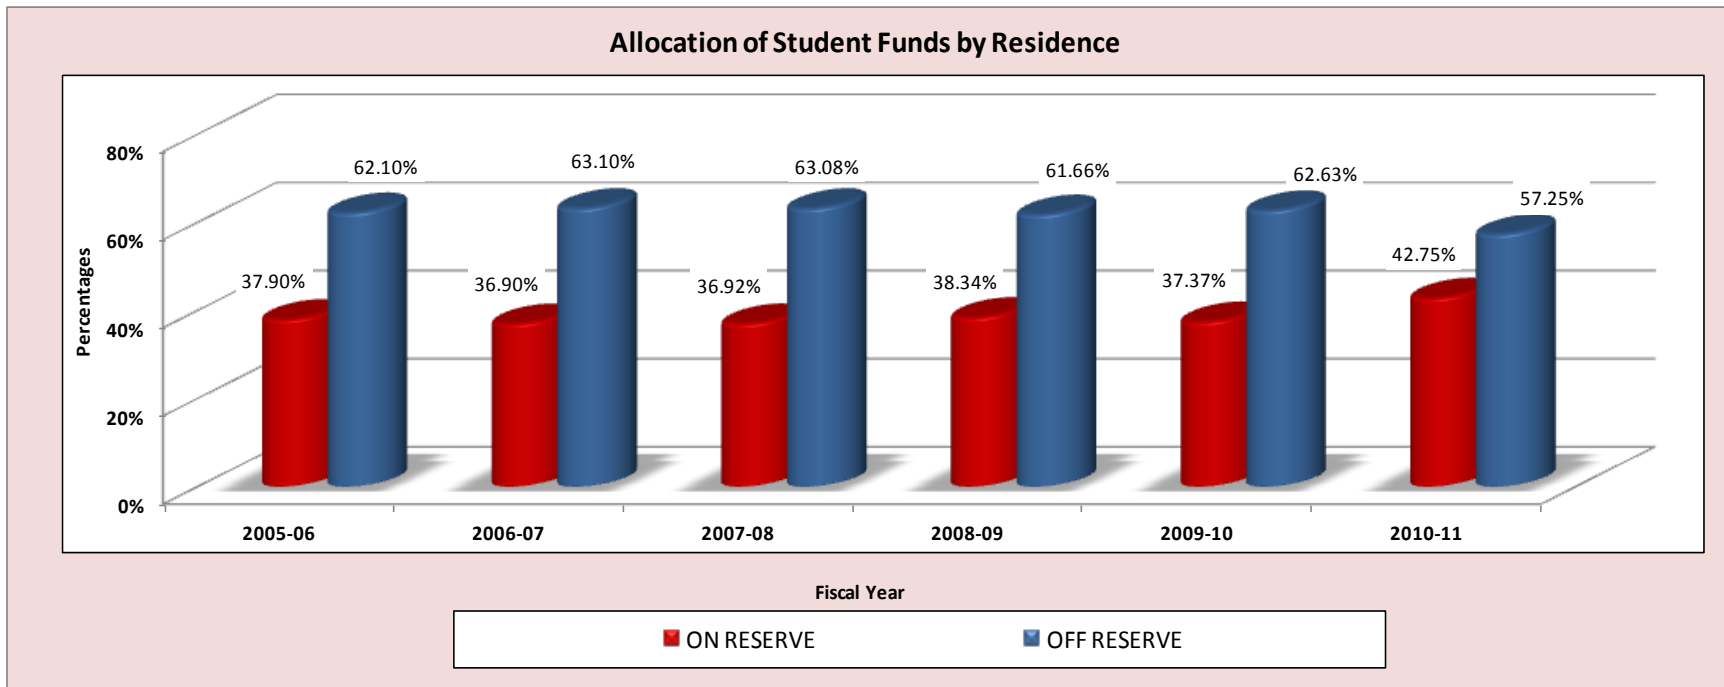

Note the lower % enrolment for students with dependents. This is a function of limited rates of assistance through the GRPSEO (allowance is \$800 per month for all full time students) and the increase in program length for some programs.

The allocation of funds to students with membership under Bill C31 (1985) is consistent with overall membership statistics for each reported year. The allocation of funds to students by residence is reflective of the residence rates for overall membership.

Audited Financial Statements 2010-2011

The 2011 audit was conducted by KPMG LLP Chartered Accountants. The following audited financial statement provides an overall Statement of Operations.

GRAND RIVER POST SECONDARY EDUCATION OFFICE

Significant Trends Affecting Six Nations Students' Post Secondary Education

The GRPSEO is guided by our collective responsibilities to make decisions that will not harm our future generations nor diminish their opportunities to thrive. This means that personal responsibility and accountability are expected of all who participate in the GRPSEO (board, staff and students).

In terms of post secondary governance and management, it is our responsibility to make prudent, ethical and responsible decisions, and to implement appropriate plans to address trends and factors that will affect future post secondary students.

The following outlines several key trends impacting post secondary education for Six Nations students. Informed by these trends, the GRPSEO continues to advocate for increased post secondary funding and encourages students to graduate high school with a full complement of courses to keep their options open.

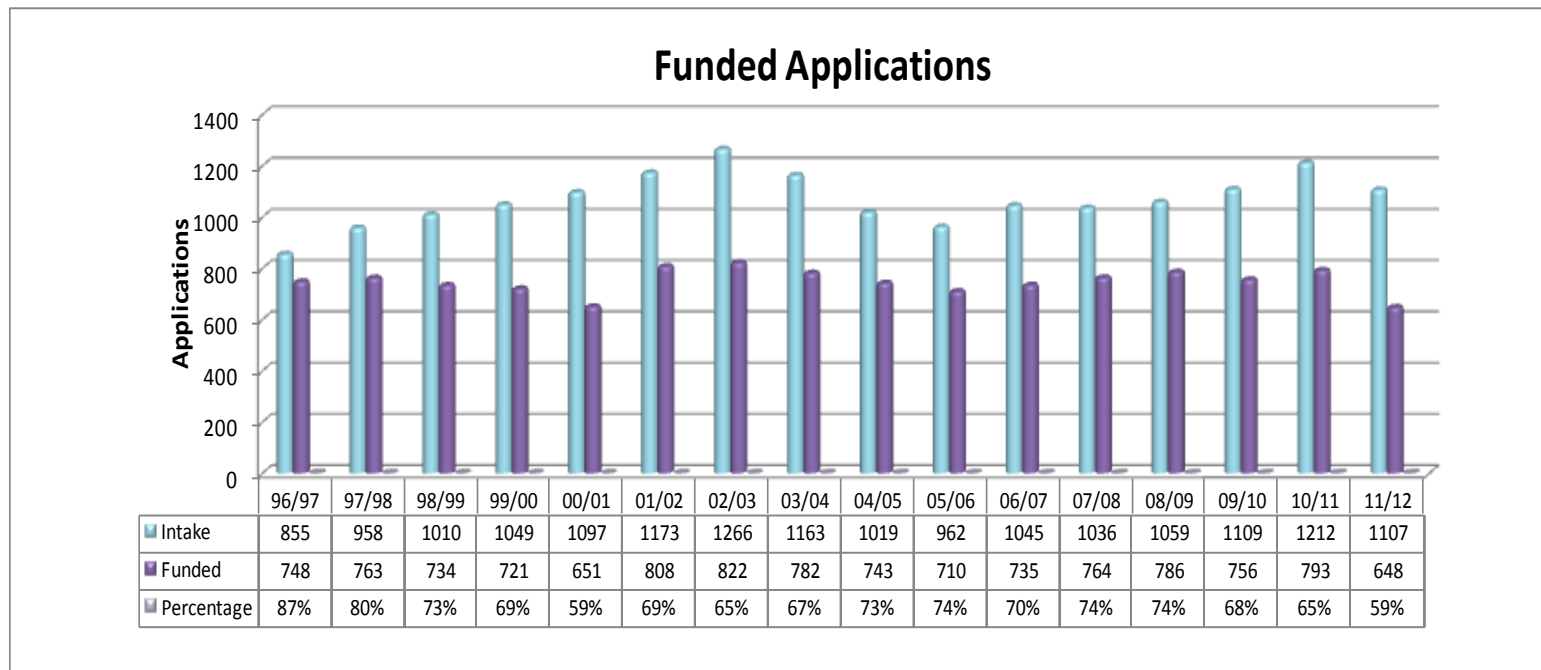

NOTE: 2011/12 data is as of September 30, 2011

- The number of students applying for post secondary has increased in the past three years.
- Tuition continues to increase but student funding has not kept pace e.g. tuition for law has increased from \$5,000 five years ago to over \$12,000.
- Mandatory program fees (in addition to tuition) for equipment and supplies at all levels of study continue to increase.

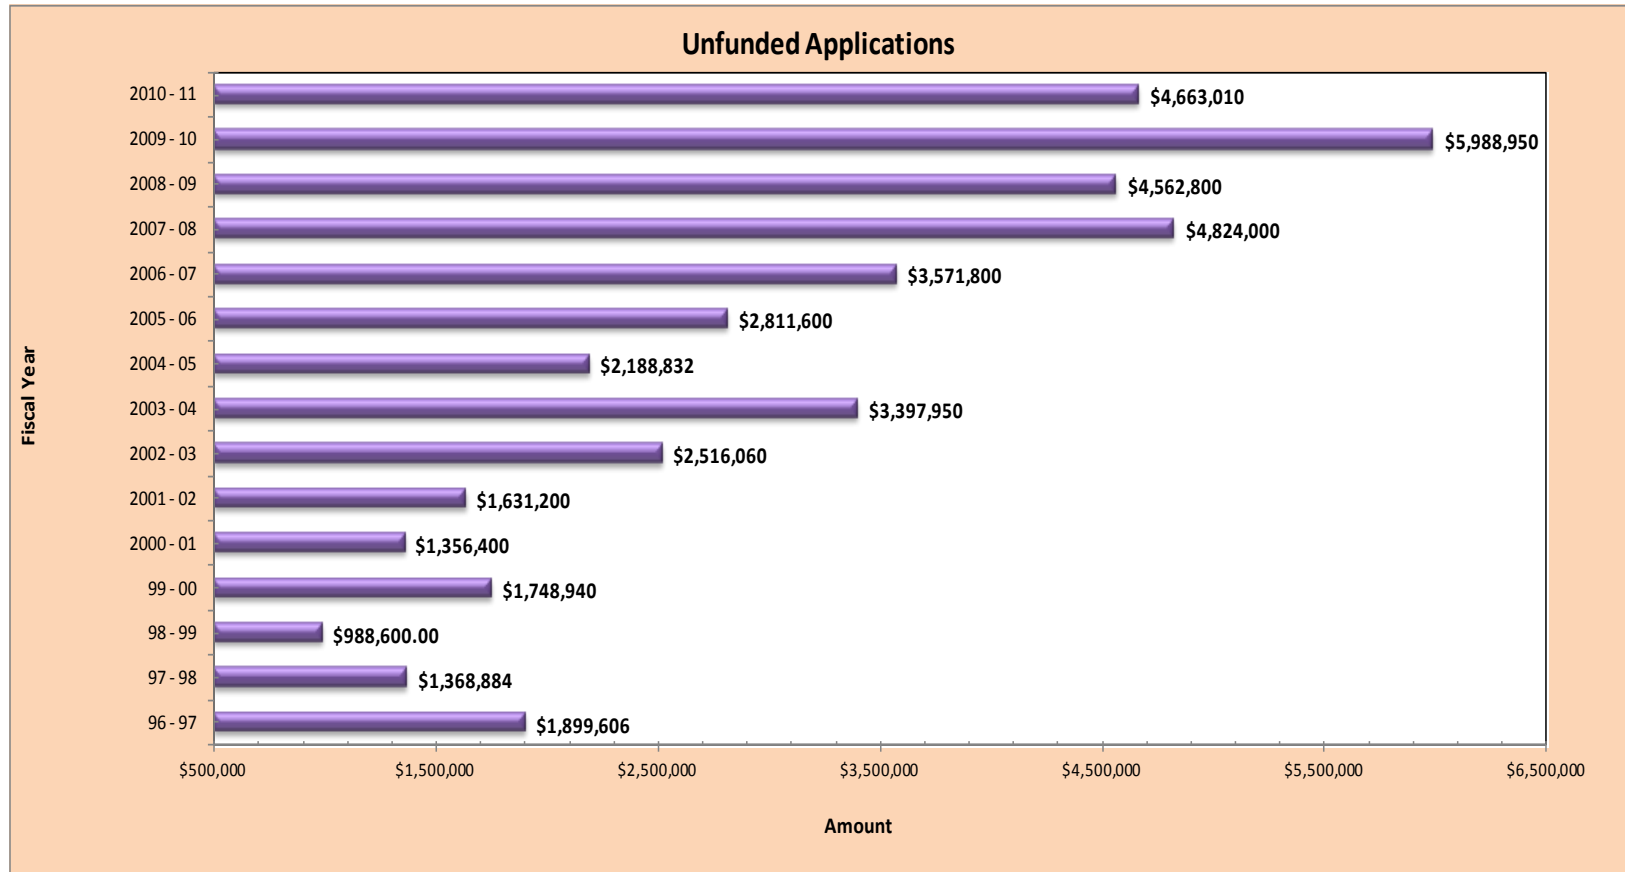

Mandatory Program Fees issued to date	
2005/2006	\$38,847.00
2006/2007	\$58,802.00
2007/2008	\$42,171.00
2008/2009	\$57,032.00
2009/2010	\$31,799.00
2010/2011	\$40,766.00

Increased tuition and mandatory program fees means a higher per student cost resulting in fewer students funded.

NOTE: 2011/12 numbers are as of Sept 30, 2011

Of the applications received, over 40% are not funded due to the increased per student costs. The following graph shows the cost to fund all eligible applications received each year **at the current rates of assistance**.

Increased Demand (cost per student) + Limited Resources = Reduced Purchasing Power

Students must seek supplemental funding or income to cover costs. The overall cost of 'living' while going to school increases. The student allowance of \$800 no longer covers the cost of residence and a meal plan at several post secondary institutions in Ontario.

Without a significant change to the overall post secondary funding for Grand River:

- More students will go unfunded – note that students over the age of 25 represent over 40% of our post secondary enrolment
- More students will totally self-fund and ALL students will continue to partially self-fund as GRPSEO funding rates do not cover costs.

Age Group	On Reserve Full Time	On Reserve Part Time	Off Reserve Full Time	Off Reserve Part Time	Sub-Total	%
15-19	62	0	90	0	152	19.2%
20-24	126	7	165	8	306	38.6%
25-29	44	6	58	4	112	14.1%
30-34	23	1	38	3	65	8.2%
35-44	32	14	31	5	82	10.3%
45-54	22	12	18	7	59	7.4%
55-64	5	4	7	0	16	2.0%
65 and Over	1	0	0	0	1	0.1%
Total Students	315	44	407	27	793	100.0%

Missed Opportunities and Lost Potential

The number of Six Nations post secondary graduates increased significantly from the initial tracking data in 1992.

With over 40% of our student applications going unfunded due to lack of funds – imagine what our graduate numbers could be like!!!

The human potential is there!!!!

Recorded Graduates

1992/93	1993/94	1994/95	1995/06	1996/97	1997/98	1998/99	1999/00	2000/01	2001/02
19	24	80	75	93	141	117	128	117	134

2002/03	2003/04	2004/05	2005/06	2006/07	2007/08	2008/09	2009/10	2010/11
127	116	108	86	123	131	100	98	58*

*Please note that the 2010/11 Graduate number will continue to increase as students will still submit their documentation after the publication of this report. Also over the years, some students have lost touch with the GPRSEO and through recent contact with our office, have been notified of outstanding documentation. Once this documentation is received, we are able to adjust our graduate number for previously reported years.

Skill and Knowledge Gaps of High School Students

Six Nations continues to have a concern with the percentage of students who DO NOT graduate from high school. Poor high school completion rates results in higher demands on adult education, social assistance and longer time in high cost post secondary programs to achieve desired employability levels.

There is wide spread concern over the skill and knowledge levels of our secondary school graduates. Many of our high school grads do not have the senior math and sciences they need to gain admission into strategic programs of study with high employment prospects. Alarminglly this is a trend across the province. Many colleges are requiring students to enroll in General Arts and Science programs to upgrade knowledge and skills before being considered for admission to post secondary programs leading to employment. The cost of one or two years in college is **much higher** than a year or two in high school!

SIX NATIONS GRADUATES THROUGH THE YEARS

Six Nations Post Secondary Graduates 1992 to 2011			1994 - 1995 Continued		
Year 1992 to 1993					
Blackbird, Lee Ann	Information Systems	Mohawk College	Clause, Jannette	Native Counsellor	Cambrian College

The Future of the Post Secondary Student Support Program (PSSSP)

Indian and Northern Affairs Canada (INAC) is reviewing the post secondary student support program and considering a range of options for change. (See GRPSEO website for more information).

Although the GRPSEO has been advised that student funding through the PSSSP will continue at its current level until 2012 the program is still under review by INAC. In the past year this review process created alarm across First Nations communities as the review was considering options deemed to be very threatening to future student funding.

During 2010-2011, the GRPSEO Board and Director continued to focus considerable attention and energy to positively impact the future of the PSSSP and its impacts for our students.

GRPSEO 2010-2011 Strategic Action Plan – The Future of PSSSP

GRPSEO continues to work with Six Nations Council in facilitating a community and mainstream response to impact the Federal Government decision making processes regarding PSSSP.

Community awareness

The GRPSEO continues to bring the issue of the future of PSSSP to the for-front of issues for the Six Nations community. In July 2011, members of Six Nations Council and the Director of GRPSEO travelled to Ottawa to voice the concerns of Six Nations and the GRPSEO around the future of PSSSP funding. Several meetings were attended in Ottawa by the Six Nations delegates and as a result of this advocacy effort, we are scheduled to have a number of MP's visit the Six Nations community in October 2011. This opportunity allows for further discussion around the future of the Six Nations community and more specifically, the future of our post secondary students.

The GRPSEO would like to thank Six Nations Council for helping us to ensure that the voices of our Six Nations community were once again present in Ottawa.

Developing Allies

GRPSEO continues to seek support from educational institutions, Aboriginal Education Circles, community organizations and stakeholders in the future of First Nations education. GRPSEO will continue to work with the Six Nations Council to ensure that we continue to advocate for the future of the Post Secondary Student Support Program and all First Nations Education programs.

Letters of support from College presidents have been received and are in support of our position. GRPSEO will continue to monitor and influence where possible INAC plans for treasury board renewal of the post secondary funding.

GRPSEO will continue to keep you informed. Please keep checking the GRPSEO website for updates.

A Message to All Families

It is wise to save for your child's education

Here are the facts:

Each year, the available post secondary funding falls short of what is required by our students. This is in part due to the annually increased tuition rates at post secondary institutions. Also the number of eligible post secondary applications continues to increase each year which demonstrates the continued success of Six Nations students at the secondary school level.

Each year students have to cover part or all of their costs of going to college or university.

PLAN FOR THE FUTURE – SAVE WHAT YOU CAN
