The overall feather symbolizes the circle of life. The circle symbolizes the circle of life. The eagle is our message carrier and it's embracing a book which carries the message that education is important. The Two Row Wampum Belt symbolizes two paths/ vessels travelling down the same river side by side. One represents natives, the other non-native and we don't interfere with each others affairs. So, this belt represents our co-existence and our need to further our education in non-native society.
