

## Tutorial Assistance

Tutorial assistance is available to full time students. The amount a student is eligible to access for tutoring is \$150.00 per semester. In order to receive funding for the tutoring the following information must be provided to your educational counsellor in written form. Your counsellor will contact the tutor in order to confirm the information. If a student pays the tutor directly then a receipt should be submitted to their educational counsellor. Tutorial assistance should be requested within the semester the tutoring was received and not after the semester is finished. Please note: Tutorial assistance is to be accessed from a qualified tutor (ie.) peer tutor, graduate or someone who has completed the course successfully.
